

Introduction

The **COVID-19 Prevention in the Workplace** Course is designed to help factories resume their operations safely. The 12 modules cover key aspects of health & safety measures to protect the workers from COVID-19 while ensuring business continuity. A toolbox and self-assessment tool come with it. Documents in the toolbox such as fact sheets and checklists are available not only in English but also in Tamil, Bengali and Turkish.

This online training is based on the Eurofins I AQM Standard for “COVID-19 PREVENTION IN THE WORKPLACE”. This standard has been developed based on recommendations / guidelines issued by the World Health Organisation, OSHA, and other relevant organisations promoting health, hygiene and safety best practices in the workplace to avoid the spread of the COVID-19 disease.

Key learning outcomes

By the end of this course, attendees will have considered all key aspects of health & safety measures and necessary steps that their organisation should implement to protect their workers from the virus while ensuring business continuity.

Who this course is for

The online course is aimed at mid to senior level management who want to resume their operations safely during these crisis times. It is relevant for a broad audience including factories' general managers, health & safety managers, compliance managers, team / line supervisors, production managers as well as brands / retailers employees. Learners do not need to have prior specific knowledge to take the course.

Format

The course consists of **12 modules**. The learning path is built on **screencast videos, quizzes, downloadables, tool kits**. Learners will be able to use a self-assessment tool at the end of the course. All participants who successfully complete the course will receive a Eurofins | AQM Certificate of Completion. The overall course duration is approximately **1 hour** (excluding time for quizzes).

Course outline

Eurofins | AQM Certificate of Completion
for successful course participants

About Eurofins | AQM

Eurofins | AQM is the agile solutions provider in product inspection, factory auditing and training. Started in France and rooted in traditional manufacturing hub China, AQM was acquired by Eurofins Consumer Product Testing (CPT) in July 2019 and renamed Eurofins | AQM.

Eurofins | AQM has progressively been expanding into new sourcing markets in Southeast Asia (Vietnam, Cambodia & Myanmar), South Asia (Bangladesh & India), as well as Europe and North Africa (Turkey, Pakistan and Ethiopia) to cope with dynamic sourcing landscape and shifting market demands. Our 280+ in-house inspectors and auditors are well trained to ensure proficiency, consistency and commitment across our services. Eurofins | AQM, an APSCA member, has been trusted by fashion brands and retailers worldwide.
